

OGC HAS REVIEWED.

18 June 1951

25X1A

MEMORANDUM FOR MR.

25X1C

25X1A

1. There has been an accident overseas on . is preparing a cable to be cleared by OGC prior to release. One of our contract agents was demonstrating a bazooka inside a building "he didn't know it was loaded." Apparently the incoming cable is not clear as to what admission we have made regarding his negligence. About five people were injured, two of whom are native military personnel who will be hors de combat for the rest of their lives. This being your project, ole boy, I present you with this bouquet.
